Claim(s) discussed: 97, other claims in general

None

Agreement with respect to the claims f) ☐ was reached. g) ☒ was not reached. h) ☐ N/A.

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Applicant has suggested an amendment to claim 97 to overcome the rejection under 35 USC § 112, second paragraph.
Applicant has additionally argued that the combinations relied upon under 35 USC § 103 to reject claims are not proper,
as the ratcheting connectors in the modifying reference to Breuer would render the base reference to Hansen et al.
inoperative for one of its stated purposes (e.g., the continuously adjustable nature of the Hansen binding) and additionally
the provision of toothed belts and buckles is specifically taught by Hansen as being non-desirable. Applicant has made a
similar argument with respect to the further combination adding the reference to Andre.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)
